Dedication

Maureen Macleod had been a dedicated teacher, friend, advisor and role model in our high school for the past thirteen years. She never missed a graduation, or failed to offer her help at a school function. Ms. Macleod was also a respected advisor for the National Honor Society.

This school will miss her ability to bring math alive, her devotion, and sensitivity to problems, academic or social, and her willingness to listen. Her own demand for respect taught students to respect themselves and appreciate what others have to offer.

The class of 1993 is please to dedicate this yearbook to Ms. Macleod. We wish her the best of luck in her future adventures. And Ms. Macleod — We'll try to be good doobies!

$$x^2 + \frac{b}{a}x + \frac{b^2}{4a^2} = \frac{-c}{a} + \frac{b^2}{4a^2}$$

$$\left(x + \frac{b}{2a}\right)^2 = \frac{b^2 - 4ac}{4a^2}$$

TAKE SQUARE ROOT

$$x + \frac{b}{2a} = \pm \frac{\sqrt{b^2 - 4ac}}{2a}$$

$$x = \frac{-b}{2a} \pm \frac{\sqrt{b^2 - 4ac}}{2a}$$

$$x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}$$

POWDERPUFF FOOTBALL

POWDERPUFF

The ever-mighty SENIORS approached the field on Monday, November 9, 1992 with great anticipation. The Undefeated SENIORS, after days of strenuous practice with their Undefeated coaches, Dave Maddox and John "Biff" Bacheller, faced their final challenge against the girls of the class of 1994. The hapless juniors, led by Bubba Hundermark and David Morris quivered at the thought of facing the mighty SENIOR squad. The cunning and masterful SENIORS prevailed once again leaving their opponent in dismal defeat. The score of 18-12 brought the crowd to their feet roaring admiration for their heroines. In spite of frigid temperatures, the jubilant SENIORS mustered their appreciation to the crowd leaving the field Champions, never again to play the very foolish game of unending hassels for as long as they lived. Praise the Lord!

Class History

Do I have to go? I really don't want to do this. Are you sure I'm supposed to go? God I feel sick. What will the other kids be like? If I get lost I'd feel so dumb. What if I trip on the bus, or better yet, what if I fall out of it? God I feel sick.

I remember the first day of freshman year and how I trembled waiting for the bus. It's strange to think, but all freshman held two things in common that first day. One similarity was we all had butterflies in our stomachs and the other was the fact that we were all on the way down a long road full of many turns and ups and downs. I don't think we ever felt then that it would seem like a race car we were in. Now that I look back I feel our four years have just gone by too fast.

Remember our freshman orientation and how our principal and guidance counselors told us that it was time to take responsibility for ourselves as a class? Responsibility — Woh! What is that? Responsibility turned out to be something that we had to work hard at to achieve. I'll never forget our first "Class of 1993" fundraiser. "Hey Tony, do we still have any of those glow sticks left?"

We have accomplished a lot while in this high school. Our ice hockey team won its first league championship this year, and made it quite far in the state playoffs. Our football team won two league titles, took the island cup away from our rivals, Nantucket two years in a row, and along with that received two state titles. Besides sports, our school itself is going through some renovations, some major ones. We received a state grant and we are building a new school. No more classes in the hallways! Along the way we went through some pretty tough times as well. During midterms of our sophomore year the Persian Gulf War broke out. How were we to study for our exams while our country was at war? Even though that event was halfway across the world, it hit close to home. We've also lost one of the best teachers that M.V.R.H.S. has ever had, Miss Macleod, to whom this book is dedicated. And to Mrs. Sanborn, a wonderful woman, we're thinking of you. Our class has gone through quite a bit, good and bad, all of it making us stronger and adding to our growing as young adults.

Through our four years our class has had a lot of changes within its representatives. We have had three presidents, Beth Blankenship, David Burt, and presently Jennifer Jones. This year our class advisors went through a transformation too. Andrea Galvin, one of our class advisors is in England for the year. At first our other advisor, Tony Lombardi was left by himself, until an exceptional lady, Mrs. Swartz, joined on to help. Thank you.

Somehow through all these changes our class has gotten it together, always last minute, but we did it. I will miss many things, but I will miss nothing more than the feeling that our class has something, something special, a sense of closeness that is hard to describe.

Even though our years together in high school are over, our class will always hold each other in our hearts and minds . . .

"These are the times to remember, for they will not last forever." (Billy Joel)

Let me start off by saying, this job is not what I had expected it to be when I signed on as Editor-in-Chief last spring. It is a lot of hard work and it has forced me to learn good organizational skills. Which are not such a bad thing to have.

I am extremely happy with this years book. It took a lot of time and dedication, but we pulled it off nicely. There is a lot of character and feeling in this book that makes it unique.

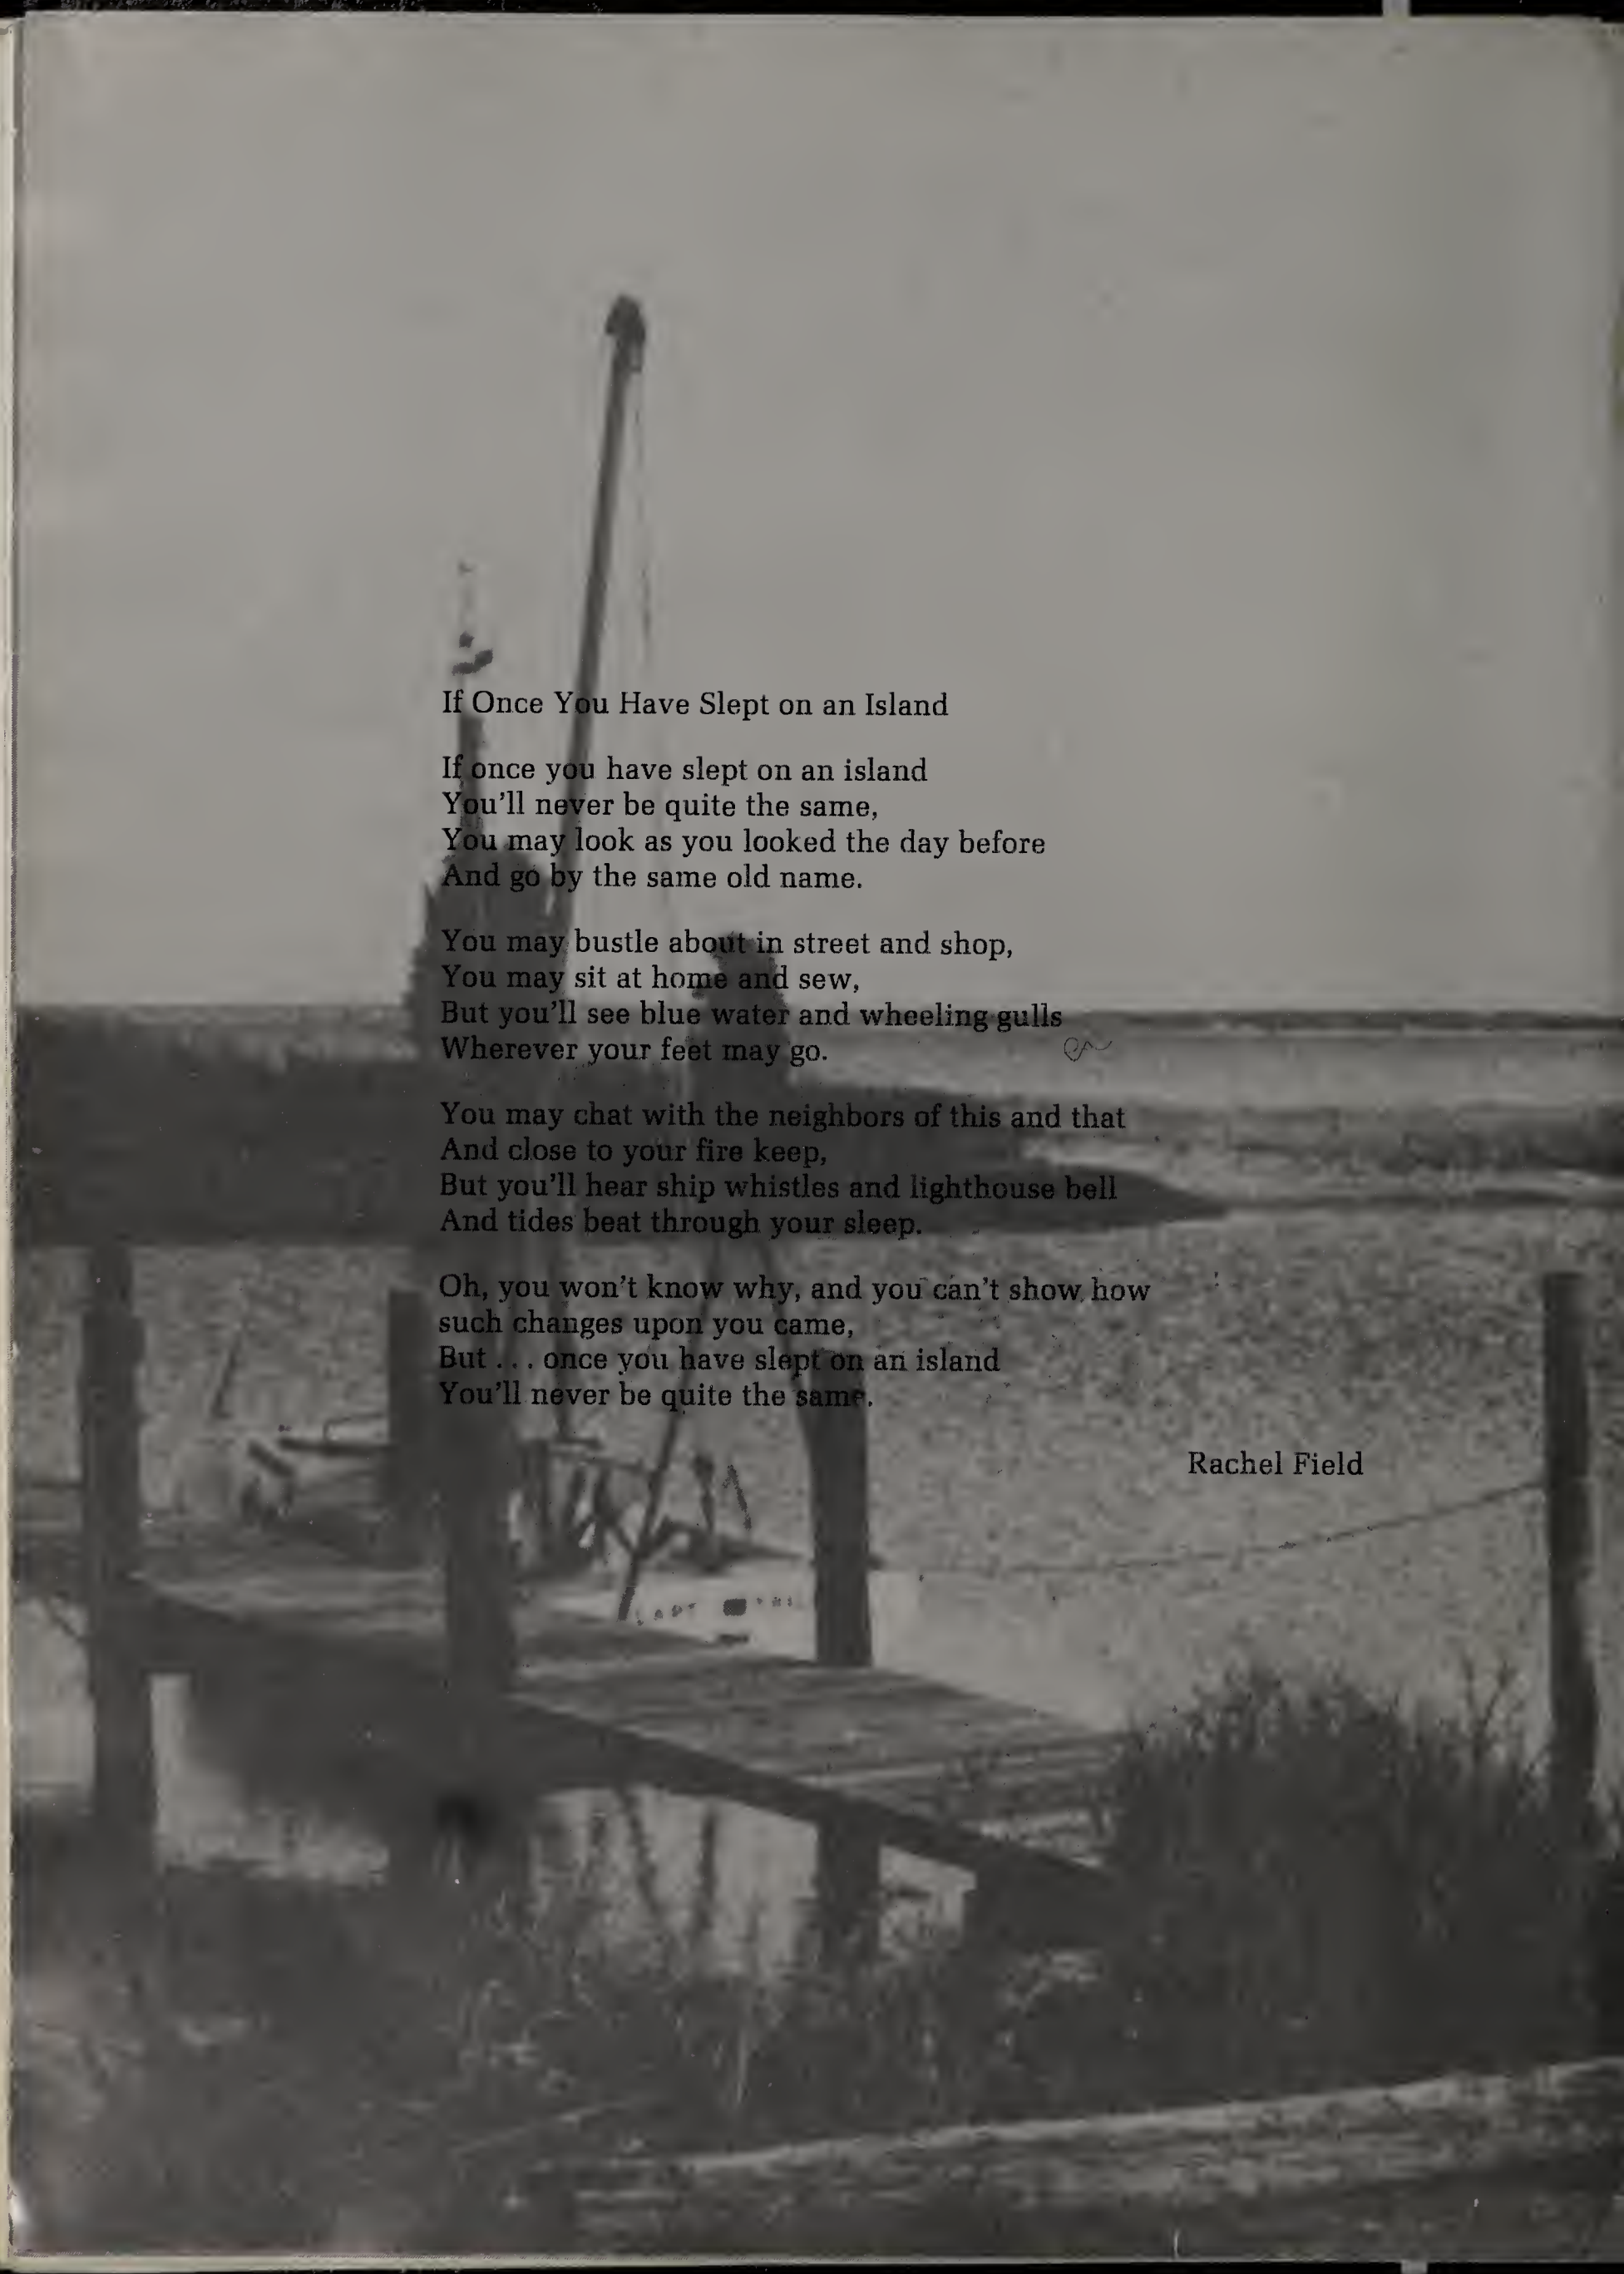
We had a small, but competent staff this year, which required each individual to double their workload, but you know, it is sometimes better that way. Everyone knows what they have to do, and no one gets in the way.

Many thanks to Mr. Cormier and Mrs. Mott, our advisors, we couldn't have done it without you. And to Mrs. Swartz, thank you so much for your time and dedication to this yearbook and our class.

I am excited for the supplement to this book that will come in August, having in it pictures from graduation, senior week, and spring sports.

Our class is such a special class in that we are so close. I hope that this book has captured most of those wonderful moments.

Eliza Eddy
Editor-in-Chief



If Once You Have Slept on an Island

If once you have slept on an island
You'll never be quite the same,
You may look as you looked the day before
And go by the same old name.

You may bustle about in street and shop,
You may sit at home and sew,
But you'll see blue water and wheeling gulls
Wherever your feet may go.

You may chat with the neighbors of this and that
And close to your fire keep,
But you'll hear ship whistles and lighthouse bell
And tides beat through your sleep.

Oh, you won't know why, and you can't show how
such changes upon you came,
But . . . once you have slept on an island
You'll never be quite the same.
